## About This Game

Who is the slickest and the craftiest frog in the pond? That is for you and your friends to decide!

**Frog Out!** is a wacky local multiplayer party game where you face your friends in the most curious of situations. Every frog for themselves!

Jump, dodge, eat, spit and generally just frog around your way to victory in this awarded family-friendly experience.

Up to 4 players supported. Since it's a party game, make sure you have at least one friend with you!

Controllers required to play.

## FROGGY FEATURES INCLUDE

**Easy-to-learn, frog like controls** - Take control of your frog and jump around to dodge hazardous obstacles, including other frogs! Capture your opponents into your mouth with your springy tongue and toss them into danger or out of the arena.

**3 exciting game modes** - Claim the lily pad for your own, be the last frog to survive a series of deadly stamps or try to cross a busy series of streets while sabotaging your friends! More to be added in the near future.

. Looking forward from launch 🐸 🐸

Hello everybody!

---

First of all HUGE thank you from all the Frog Out! devs for the kind words. Because of your affection we got the green light to continue active development! This is super exciting for us and we hope to enjoy your continued support on this amazing journey.

So what's next for Frog Out!?

By far the most requested feature, and one we agree the game direly needs is Network Multiplayer. Therefore we're pleased to announce that this will be our Top Priority going forward. Network Multiplayer is a prerequisite for the game to have a meaningful mobile client and mobile port was a condition for us to be able to continue active development with no pauses. Our vision is true cross platform play: maybe you don't have 4 controllers for the PC or for your console of choice but have some phones capable of running the game so you all connect together to play – making that possible is what we are working towards.

Something else we can reveal that's also in the works is rework to the frogger level. Naturally bug fixes, balance updates and similar improvements are on the menu ☺☺

We are really frickin' excited about all of this and if you are, too or generally have any feedback or comments don't hesitate to reach for us for example through our Twitter <https://twitter.com/FrogOutGame>

Love,

The Frog Out! Collective. **Version 1.01 is released!:**

Bug Fixes:

- Fixed game crashing when dropping in to water with tongue out
- Fixed player becoming invulnerable if eaten by another frog when hydraulic press comes down in factory level
- Fixed collision issues
- Fixed invincibility duration not displaying correctly
- Fixed being able to jump during eating

Balance changes:

- Factory level now speeds up by 5% every time the hydraulic press comes down

**. Halloween sale is live! This will be your best chance to be an early adopter of Frog Out!:**

Directly after Halloween sale we will be increasing the base price of the game. This will be done in anticipation of the addition of internet play. The price increase will be done in moderation of course; however, we feel that the addition of internet play will make our game a more valuable product. The reason we must do it well in advance is due to steam rules. Now is a great time to grab a Halloween decorated party game for your Halloween parties!

Frog Out! is in active development and internet play is planned to be released by the end of the year. By purchasing the game you will receive all future updates free of charge.. **Halloween patch is live!** ☺☺

Besides seasonal decorations we present you with the complete overhaul of the "Street" -level.

All changes made to Street are there to encourage combat and generally the kind of wacky action the game is great for. Street may receive further adjustments according to playtesting so be sure to let us know what you think of it either on [steam forums](#) or our [twitter](#) ☺☺

Patch notes version 1.02

---
